

PRESS RELEASE

Spring 2016 Actuarial Science and Risk Management Case Competition

April 14, 2016

On Saturday, April 2, 2016, undergraduate and masters students in the Actuarial Science and Risk Management and Insurance Property and Casualty and Employee Benefits capstone courses participated in the Semi-Annual Case Competition. Students, working in teams of two or three, presented their assessment of the risks faced by large multinational corporations of their choosing. Students presented in front of panels of judges consisting of business professionals across the Actuarial Science and Risk Management professions and were judged on written reports and oral presentations. Awards were given for the Best Overall Presentation, Best Individual Presenters, and Best Papers.
