An invisible car came out of nowhere, struck my car and vanished.

I left my car unattended for a minute, and whether by accident or design it ran away.

A lamp-post bumped into my car, damaging it in two places.

I didn't think the speed limit applied after midnight.

Coming home I drove into the wrong house and collided with a tree I haven't got.

Going to work at 7am this morning I drove out of my drive straight into a bus. The bus was 5 minutes early.

As I approached an intersection a sign suddenly appeared in a place where no stop sign had ever appeared before.

I collided with a stationary truck coming the other way.
