Willis Towers Watson, Actuarial Analyst

Giovanni Adiletta works in Philadelphia as an Actuarial Analyst for Willis Towers Watson within the Health & Benefits line of business. Over the past two years, he has learned a great deal about the complexities that make up the health care market space, and how the actuarial skill set brings value to clients. He has taken a particular interest in calculating IBNR reserves, active medical pricing, and has taken a lead on the Retiree Drug Subsidy process. Giovanni serves in Willis Towers Watson's Multicultural Inclusion Network, a group that embraces the differences in race, ethnicity, religion, language and culture within the company.

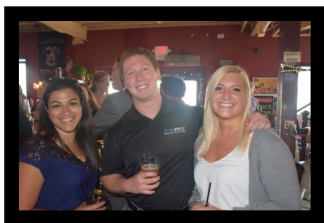

Giovanni graduated Summa Cum Laude with a Bachelor of Business Administration in Actuarial Science and a Bachelor of Arts in Mathematics from Temple University in 2015. While at Temple, Giovanni was an officer of Gamma Iota Sigma, serving on the Actuarial Science Career Development Team. He has passed all five of the SOA preliminary actuarial exams and is on track to receive his ASA designation early next year. In his free time, Giovanni enjoys boxing, playing guitar and skateboarding.
