5th Annual Mathematics Owlympiad

FOX

On Friday, May 16, 2014, the 5th Annual Mathematics Owlympiad hosted by Temple University's Department of Risk, Insurance, and Healthcare Management along with the Sigma Chapter of Gamma Iota Sigma took place. 40 different high schools from the area fielded 69 teams with a total of 272 student competitors. Throughout the day, teams competed in three rounds that tested the mathematical knowledge and problem solving abilities of the 11th graders in attendance. The team sent by Unionville High School (pictured above) continued their dominance of the event by taking the crown for the third time out of the five years that the event has been held. Travelers and the Casualty Actuarial Society proudly sponsored the event.
