## Spring 2014 Actuarial Science Case Competition

---

On Saturday, April 5, 2014, Actuarial Science students in enrolled in AS 3596, Casualty Contingencies, under the instruction of Professor Storm Wilkins, participated in a case competition. Students groups were asked to address the topic: *How to manage risks associated with alternative energies.*

*Professor Wilkins presents Anb Van Tran and Austin Abermann with the award for Best Presenters.*

*(From left to right) Christopher Spiker, Anb Van Tran, and Shayna Bram are presented with the 2014 award for Best Presentation by Professor Wilkins (middle).*

The groups' presentations were judged on the critical analysis of the issue, creativity of recommendations and ability to answer judge's questions fully, critically, and thoughtfully.

*Professor Wilkins (middle) presents the award for Best Papers to the duos of (from left to right) Muhammad Hazim Shabruddin & Muhammad Nazri Idris and Wen Zhu & Priyanka Patel.*
