Shari Natovitz
Spencer Educational Foundation
Risk Manager in Residence
Senior Vice President
Director of Risk Management
Silverstein Properties

Wednesday, March 20, 2019, 12:00PM-12:50PM, Alter Hall 031

As Director of Risk Management for Silverstein Properties and World Trade Center Properties, Shari is responsible for providing leadership, direction and solutions for the risk management challenges associated with the Silverstein portfolio of buildings, various operational exposures, new construction projects including the World Trade Center and financial lending ventures. In addition to bringing economic efficiency to the risk transfer programs which include an insurance budget of over \$50 million, she is actively involved in the construction safety programs, review and management of operational and construction claims and the operation of two captives. Her diverse background includes positions at an insurance company, regional broker, and two national brokers. Shari also operated her own consulting firm and she completes her 360-degree view of the industry

through her position as Director of Risk Management for Silverstein Properties. Her prior experiences support a partnership approach with her brokers and carriers as she brings technical and practical knowledge in risk finance, construction and coverage challenges to the risk management process.

Shari is active in the insurance community and a strong supporter of RIMS and the Risk Manager in Residence Program. She has developed and led a variety of seminars and presented at various national RIMS conferences on such topics as Wrap-up programs, TRIA, Construction Risks for Owners, Labor Law Challenges, Emergency Response and Business Continuity. She has also been a panelist and speaker for the Institutional Investor Conference, the Advisen Property and Casualty Conferences and various carriers from AIG to Zurich.

She brings over 35 years of experience with project insurance, funding alternatives and strategic risk management tools to her current position.
