Many questions come to mind when considering internships and full-time positions. Property and casualty or employee benefits? Philadelphia or relocate? These sessions are a great opportunity to interact with companies that will be present at our career and intern receptions and discuss company initiatives, employment expectations, corporate culture and other information to help students make these decisions.

Actuarial Science Intern Reception Thursday, November 15, 2012 - 1-4:30PM - 7th Floor Alter Hall

The Actuarial Science Intern Reception provides the opportunity for members to present themselves to potential employers in a setting strictly for students seeking intern positions who are members of Gamma Iota Sigma and who have completed all the requirements to be in the Resume Book. The career receptions in the past years were a great success with a multitude of companies on-hand to discuss their job opportunities. The companies in attendance ranged from insurance carriers, consultants, and more from the employee benefits and property casualty industries.
