VOLUME XXX, ISSUE IV

FEBRUARY 18, 2013

The H. Wayne Snider Distinguished Guest Lecturer Series presents:

Matthew Mosher

Senior Vice President & Chief Rating Officer

AM Best Company

Wednesday, February 20, 2013, Alter Hall 031 - 12-12:50PM

Matthew Mosher is the Senior Vice President & Chief Rating Officer for the A.M. Best Company, an independent insurance information and rating service provider.

Matt oversees over 125 analysts in three offices who are rating and reporting on over 4,000 insurance companies in over seventy countries around the world. In this role as the head of A.M. Best's rating operations globally, Matt chairs the corporate rating committee for ratings world-wide and is a major contributor to A.M. Best's rating criteria development.

He has been employed at A.M. Best Company since 1995. Prior to assuming the responsibility for A.M. Best's global rating coverage in 2009, Matt was responsible for the property/casualty rating area for eight years and prior to that served in various managerial roles, as well as serving as A.M. Best's property/casualty actuary. During that time, Matt was responsible for the development and maintenance of most of the property/casualty rating models, including Best's Capital Adequacy Model (BCAR). Matt speaks to many industry groups on a wide array of insurance and rating issues and is a vocal advocate of the need to educate students about the opportunities within the insurance industry.

Prior to joining A.M. Best, Matt spent two years in consulting and seven years within the U.S. property/casualty industry.

Matt is a graduate of Lehigh University with a B.S. in Statistics. He is a Fellow of the Casualty Actuarial Society, a member of the American Academy of Actuaries, and a member of the Griffith Foundation Leadership Council.

23rd Semi-Annual Gamma Games Recap

Thank you to all participants and spectators of the 23rd Semi-Annual Gamma Games for making it one for the history books. The event was well represented by new and returning members, alumni and faculty. All of the risk and insurance-based teams competed bravely, but Adverse Selection Death Spiral, under the guidance of team leader Bart Stachurski, rose to the top as the clear champions.
