**The H. Wayne Snider Distinguished Guest Lecturer Series presents:**

**Jack Burke, FSA, MAAA**  
**Principal & Consulting Actuary**  
**Milliman**

**Wednesday, March 19, 2014, Alter Hall 031 - 12-12:50PM**

Jack is a Principal and a Consulting Actuary with the Philadelphia office of Milliman. He joined the firm in 1999.

Jack has extensive experience in all aspects of the small employer managed care market, including operations, systems, product design and development, legislation, underwriting, pricing, management of distribution systems, and overall business strategy.

Since joining Milliman, Jack has been involved in a variety of projects involving small and large group commercial products and Medicare. He has also developed expertise in consumer-driven products, including HSAs and analysis of single-payer legislative proposals.

Prior to joining Milliman, Jack worked at Aetna and UnitedHealthcare. While at United Healthcare, he was Vice President of Product Management of Health Plan Products, including the open-access product. Prior to that, Jack was Vice President of a small group, responsible for growing UnitedHealthcare's share of the small-employer market.

Prior to working at UnitedHealthcare, Jack spent 13 years at Aetna, where he gained broad management experience, including running an 180-person production unit and managing a large HMO system development project. At Aetna Health Plans, Jack was the Chief Financial Officer for, and ultimately head of, a 600-person, \$1.6 billion strategic business unit selling group insurance and managed care to small employers.

Litigation management is part of a comprehensive risk management strategy that many insurers have in place, and this workshop will shed some light on the topic. Litigation can cost millions or billions of dollars, so taking active steps to reduce the risk of litigation or to minimize the harm litigation can cause is essential to being a successful insurer. Professor Storm Wilkins will join students in discussing how the litigation process is undergone and share some specific cases with students.
