AS Basic Workshop: Basic Programming

Friday, November 3, 2017

12:00pm-12:50pm

Alter Hall 606

Actuarial roles are increasingly technical, and the trend does not seem to be waning off. To better equip our members to be successful in these roles, Gamma Iota Sigma will be offering **Basic Programming**. This workshop will include a basic, high-level overview of SAS, R, Access, and ResQ. These programs are frequently used in the actuarial profession and could give you an edge over other job candidates. Please come out and learn how these programs are used in the insurance industry today.

AS Advanced Workshop: Advanced SAS

Friday, November 3, 2017

12:00pm-12:50pm

Alter Hall 034

SAS is a database software used by many carriers, brokers, and financial institutions to store and manipulate their extensive data stores. If you are interested in learning more about SAS and how to use it, please attend the **Advanced SAS** workshop. You will be programming and walking through a data analysis to develop an understanding of this program. It is imperative that you download SAS University Edition for FREE from www.sas.com.

RMI Workshop: ISOP NextGen

Friday, November 3, 2017

12:00pm-12:50pm

Alter Hall 031

On November 3rd, **Rob McCaw** and **John Walsh** from the Insurance Society of Philadelphia (ISOP) will present on the organization's NextGen group. NextGen was designed to bring together emerging professionals in the insurance industry through education & professional development, mentorship, networking and community engagement & charitable work. Rob and John will discuss how the organization can benefit students, as well as describing the various scholarships and internship opportunities ISOP NextGen can provide. This is a great workshop for all Risk Management and Insurance majors!

THE H. WAYNE SNIDER DISTINGUISHED GUEST LECTURER SERIES

VINCENT HOUCK

HEAD OF THE ANALYTICAL CENTER OF EXCELLENCE

TD BANK

WEDNESDAY, NOVEMBER 1, 2017, 12:00PM-12:50PM, ALTER HALL 031

Vinnie Houck studied Psychology and Biology at the University of Delaware and, naturally, became a banker of 16+ years focused on credit card risk management. He thought he would go on to reading brain scans as a neuroscientist but evolved to reading five-year pro-forma profit and loss financial statements and performing logistical and linear regression to manage risk.

Vinnie has held key management positions with some of the leading players in the credit card industry such as MBNA/Bank of America and Barclaycard US, and is now fortunate enough to be working for TD Bank, America's Most Convenient Bank (AMCB), one of the 10 largest banks in the US.

Based in Wilmington, DE, Vinnie is the Head of TD's Credit Card Analytical Center of Excellence. His team is responsible for enhancing analytics, loss forecasting, data governance, new deal risk inputs, and card reporting.

Upcoming SEP Eligible Events

Monday Committee Meetings - Monday, October 30, 2017, 12:00pm-12:50pm

Monday Luncheon - Monday, October 30, 2017, 1:00pm-1:50pm
